## WS600

MECATRONIC

**Wire Stacker**

### DESCRIPTION

WS600 is a fully electrical wire stacker for cables and wires produced by every kind of cut and strip machines. The wire is driven through the stacker collecting tube by the transport rollers of the cutting and stripping machine. The WS600 highly reduces wire collecting problems and makes collecting times more flexible.

### Technical features

<b>Cable diameter:</b>	min 2 mm, max 12 mm
<b>Cable length:</b>	from 100 to 1500 mm
<b>Compressed Air:</b>	6 bar
<b>Power supply:</b>	220/ 240V – 50/60 Hz
<b>Weight:</b>	70 KG
<b>Dimensiones:</b>	1645 (1730 with terminals insertion)x1200x1200 mm
<b>CE Conformity:</b>	Il WS600 fully complies with all CE and EMC equipment guidelines relative to mechanical and electrical safety and electromagnetic compatibility.
<b>Important:</b>	Mecatronic recommend to submit wire samples in case of doubt about the processing capabilities of a particular machine.

Technical specifications are subject to change according to possible needs and without notice
